

# LSM7000

## High Temperature Sealant Tape 210°C

### DESCRIPTION

**LSM7000** is polyvalent and economic sealant tape recommended high temperature cures up to 210°C (autoclaves cycles).

**LSM7000** is economic and ideal for use on composite or metallic tools, this sealant tape is easy to release from the tools: no contamination on the surface mould. (It is recommended to strip the tape from the mould surface once it has cooled down to room temperature).

**LSM7000**

### STORAGE

Keep this film at room temperature and normal hygrometry. Do not refrigerate.

Shelf life: use within the 12 months after deliveries.
