Sealant tape up to 232°C

Vacuum
Moulding

Vacuum
infusion

DESCRIPTION

LSM5126 is polyvalent and economic sealant tape recommended high temperature cures up to 232°C (autoclaves cycles).

LSM5126 is ideal for use on composite or metallic tools, this sealant tape is easy to release from the tools: no contamination on the surface mould. (It is recommended to strip the tape from the mould surface once it has cooled down to room temperature).

SM5126

STORAGE

Keep this film at room temperature and normal hygrometry. Do not refrigerate.

Shelf life: use within the 12 months after deliveries.
